

CK-02/3 Transponder Card Reader

WX-004-0147

The drawings, photos and graphics used are for illustrative purposes only.

Overview

Transponder card reader is used for quick identification and logging of operators to a weighing system or identification of vehicles on a weighbridge. CK-02/3 is designed for scales equipped with terminals PUE C41H and PUE 5 series. It is installed next to the terminal. Communication through RS 232, power supply 5V from scale terminal. Area of Use: • Additional equipment of load cell based industrial scales; • Identification of weighing instrument operator; • Identification of vehicles on weighbridges. Design: Transponder card reader CK-02 is manufactured in plastic housing.

Intended Use:

Designed for scales equipped with terminals PUE C41H and PUE 5 series. It is installed next to the terminal. Communication through RS 232, power supply 5V from scale terminal.
