Overview

The module allows the connection of a load cell platform to the PUE CY10 head

Expand the capabilities of your terminal Enhance the functionality of your weighing system with the AWM-1 module from RADWAG, a leader in precision weighing innovations. This advanced module allows for the easy and convenient connection of an additional weighing platform to your terminal, enabling more comprehensive analysis and faster data processing.

Two such modules can be installed in the PUE CY10: a basic module and an additional one. The basic module will be installed in every PUE CY10, and the additional one will be installed as an option.
