Overview

EtherNet/IP - (Ethernet Industrial Protocol), an industrial communication protocol using Ethernet. EtherNet/IP is based on CIP (Common Industrial Protocol) and is widely used in industrial automation. The use of the EtherNet/IP interface ensures compatibility of Radwag weighing systems with other manufacturers' industrial automation components. This approach results in easier and faster integration of scales with PLCs, HMI operator panels or industrial robots.

Compatible with (Additional Fee)

PUE HX7 Weighing Terminal

PUE HY10 Weighing Terminal
