Overview

Datalogic PowerScanPM9600is a quick and reliable scanner intended for area imager barcodes. The scanner ensures omnidirectional readout of barcodes, even from the distance of 1 m.

The PowerScan PM9600 cordless model further enhances the operator efficiency and safety with Datalogic's STAR Cordless System™. Bidirectional radio communication and display allow users to receive immediate feedback avoiding any risk of mistakes. A characteristic feature of the scanner is high resolution of the image sensor that meets expectations of most applications dedicated for warehouse, logistics, transport and production solutions.

Patented technology, the Green Spot and Datalogic 3GL™ (3 Green Lights), informs the user about correct barcode readout. This solution is ideal for rooms with high background noise such as industrial areas. The scanner is equipped with housing that features IP65/67 ingress protection which makes it both waterproof and dustproof device. Designed to withstand multiple drops from a height of 2 m to solid surface.

User comfort is guaranteed by ergonomic shape, i.e. handy and well-balanced design. These make DatalogicPM9600a perfect device to be applied in industry, logistics and warehouse.
