## Overview

Character communication protocol is designed for communication between RADWAG balance and external device via RS232, Ethernet or Wi-Fi\* interfaces. The protocol consists of commands sent from the external device to the balance and responses sent from the balance to the device. Responses are sent from the balance each time a command is received as a response to the command. The commands that make up the communication protocol allow you to obtain information about the status of the balance and ways to influence its operation, for example, they allow you to receive weighing results from the balance, control the display, etc.

\* Wi-Fi® is a registered trademark of Wi-Fi® Alliance.

## Compatible with (Additional Fee)

HY10.HRP.H High Resolution Scale

HY10 Multifunctional Scale

HY10 H Stainless Steel Multifunctional Scale

HY10.HRP High Resolution Scale

HY10.H scales for PGC

PUE HY10 Weighing Terminal
